

Uber & Bolt Driver Registration Checklist

Everything you need to get fingerprinted and registered as a driver-partner — no guesswork, no long queues.

1. Documents to Bring

[] South African ID or Passport

Your ID book, smart ID card, or a valid passport. Bring the original.

[] Proof of Residence

A utility bill, bank statement or affidavit — not older than 3 months.

[] Driver's License / PrDP (if you have one)

Not required to get fingerprinted, but bring it along if you already have it — it speeds up your platform registration.

2. Fingerprint (Biometric) Capture

Uber and Bolt require a biometric fingerprint capture as part of driver-partner registration and background checks. Web Graphs Technologies handles this for you — walk in with your documents, no appointment needed.

Price	R350 per capture
Booking	Walk-in — no appointment necessary
Address	9 Jill Street, Langlaagte North, Johannesburg, 2092
Hours	Mon – Fri: 8:00 – 17:00 Sat: 8:00 – 13:00

3. Quick Steps

1. Gather your documents using the checklist above.
2. Visit Web Graphs Technologies for your fingerprint capture (R350, walk-in, no appointment needed).
3. Register as a driver-partner on the Uber or Bolt app and upload your documents as prompted by the platform.
4. Wait for Uber or Bolt to review and approve your account.

Note: final approval and processing times are set by Uber and Bolt directly, not by Web Graphs Technologies.
